The European Chamber of Commerce of the Philippines (ECCP) is a service-oriented organization whose main goal is to foster close economic ties and business relations between the Philippines and Europe. The ECCP does this by providing a wide range of business services and by creating linkages between companies, organizations and individuals with existing or potential business interests in Europe and the Philippines. The ECCP membership is 800 strong which makes us the largest foreign chamber in the country.

The ECCP sees itself as the stepping stone for Europeans into the Philippine market and for Filipinos into the European market.
